Powering *the* everyday.

A CURATED COLLECTION

Everyone has their own distinct idea of a perfect shower. We don't know what makes yours, but we're confident you'll find your ideal combination of comfort, performance and style to power your everyday, and complete your space.

THE PERFECT CHOICE

The perfect shower that's right for you. Beyond the classic curves and the angular, contemporary look, here are some tips to help you decide.

Choosing your shower system.

WATER COVERAGE

The bigger the shower head the better body coverage you obtain. Some shower heads swivel to meet specific user needs.

SPRAY OPTIONS

The shower systems have multiple spray modes.

You can choose how to switch the modes – push or turn.

ACCOMMODATING ALL USERS

The Ceratherm Flex range allows customised installations to ensure the perfect set up every time.

EasyMount fixation can be moved to match existing holes, removing the need to re-tile.

LEVEL OF CONTROL

With single lever showers you rotate the handle to reach the right temperature and the proper water flow.

With thermostatic showers, temperature and water flow have separate controls. The thermostatic valve supports a stable water temperature, regardless of supply, and includes anti-scalding settings for households with users of different ages and abilities.

ENGINEERED FROM THE INSIDE

The technology that powers your ideal shower.

SPRAY MODES

Whatever your mood, our showers have a mode to suit. Choose from drop jet, massage, aerated rain, fine rain, and rain sprays for a great showering experience every day.

ECO FLOW REGULATOR

Our eco flow regulators give you a perfect showering experience while reducing water consumption – even for rain showers.

SWIVEL ARM

Every space is unique, so our Swivel Arm function lets you adjust the angle of the shower arm during installation, to ensure it fits to your shower perfectly.

EASY CLEAN

Soft, rub-clean nozzles reduce limescale and help keep your shower head looking its best.

COOL BODY

Cool Body ensures the hot water flow is always surrounded by cold water, protecting users of all ages from scalding, and offering total comfort of use.

IDEALFLEX

The Idealflex hose is smooth, durable and simple to clean – just wipe it down.

EASY INSTALLATION

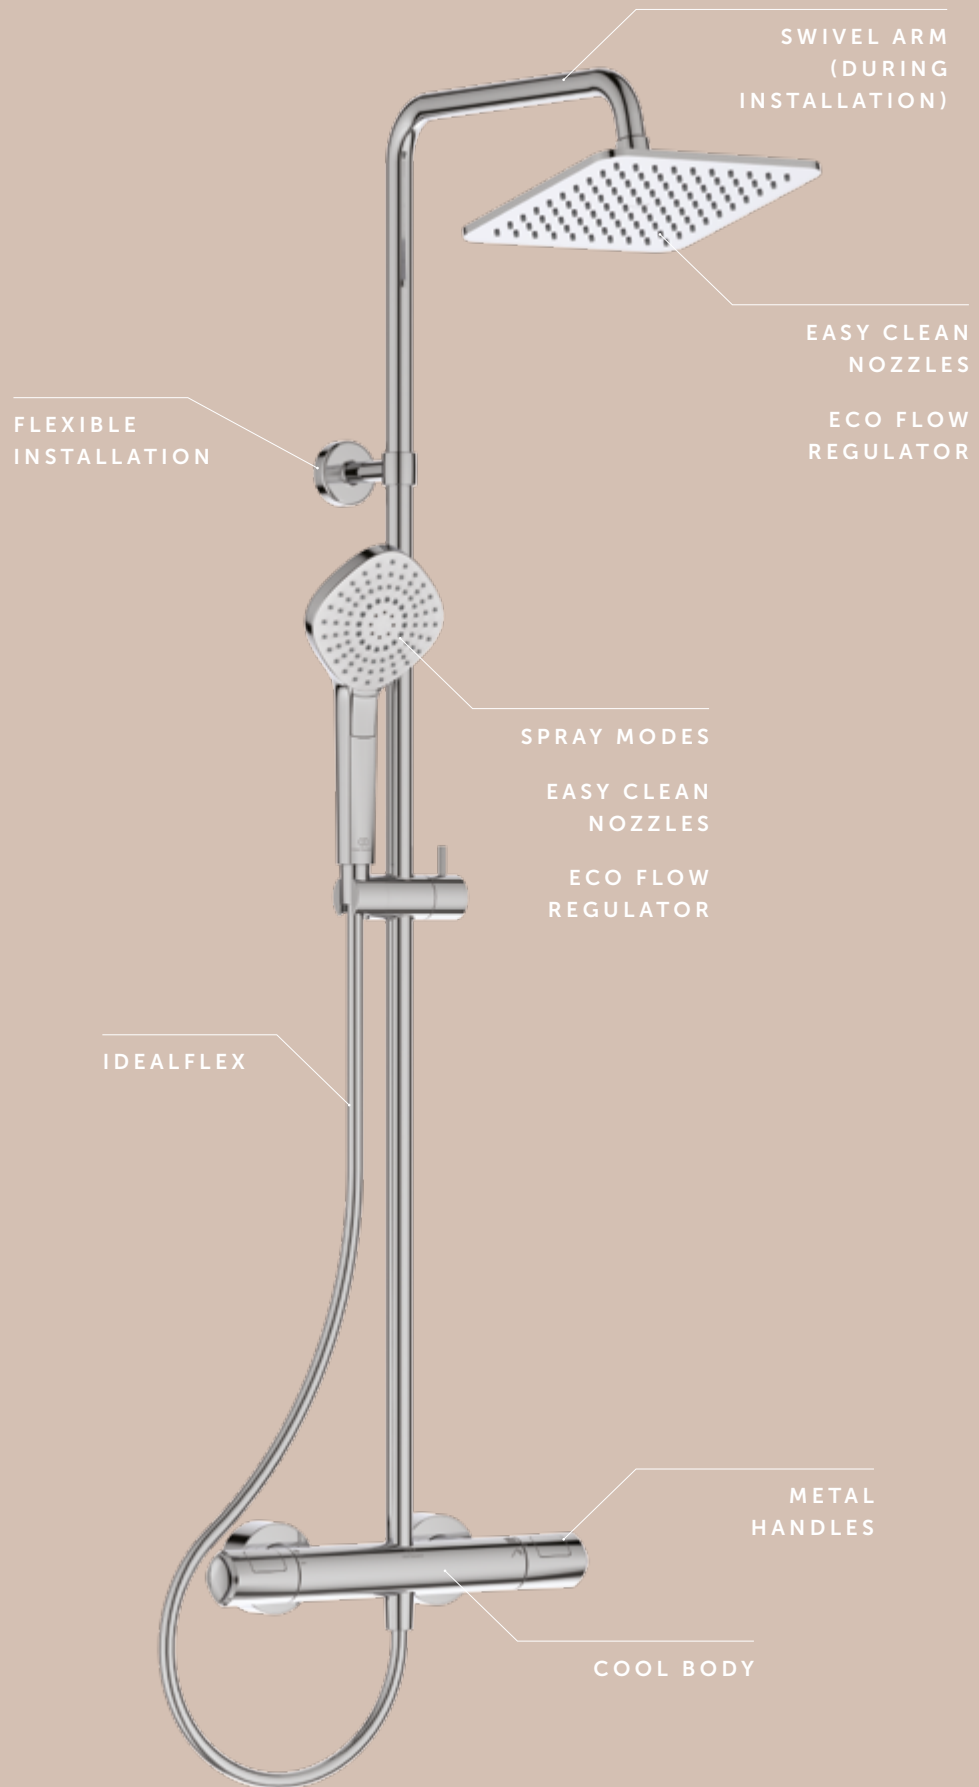

Precalibrated in our factory, with a streamlined design, common connections and height adjustable wall bracket fittings mean installation is easy in almost any location.

METAL HANDLES

For a sleek look that lasts, our showers come complete with durable metal handles.

IDEALRAIN

From invigorating to relaxing.

Idealrain offers a personalised showering experience. Large handsprays ensure maximum comfort and edge-to-edge nozzles are designed to create big indulgent downpours.

DROP JET

An invigorating spray that refreshes and revitalises.

SPRAY MODES

There’s a choice
of modes to match
your mood.

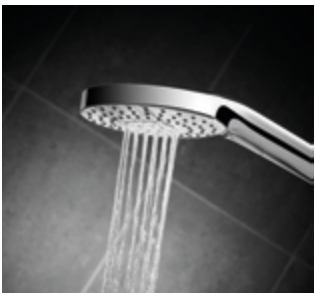

MASSAGE

An invigorating spray that
refreshes and revitalises.

AERATED RAIN

A spray that sucks air into the
water for a gentler, cleansing
experience.

FINE RAIN

A gentle but generous spray
that cleanses and calms.

RAIN

A relaxing downpour created
by edge-to-edge nozzles.

POWERING THE EVERYDAY

Find the shower for you.

Original design or renovation, family bathroom, wetroom or en suite – you'll find our collections deliver a shower experience defined by style, comfort and performance.

Design

P. 14

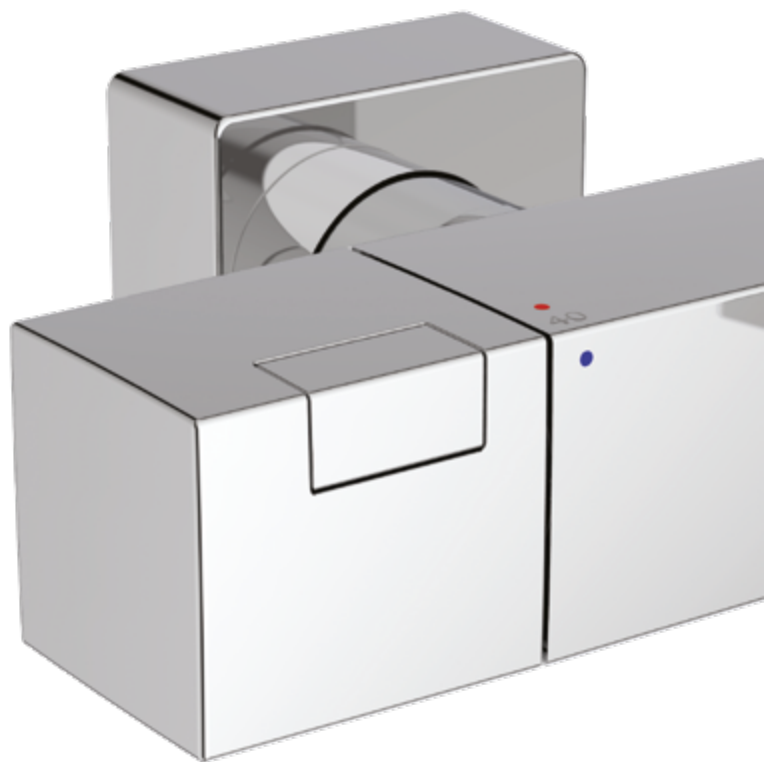

Design

Minimalist, with bold geometric design, flat surfaces and extra large heads – these high-end showers can become a statement piece.

And they perform beautifully too, with easy mount fixtures, diverter integrated in the handle and Cool Body for superior safety.

CERATHERM C100

A statement cube design with 45° flush button.

A7542AA Ceratherm C100 Shower System – Square

Design

A7331AA Ceratherm S200 Shelf Shower System – Round

EXTRA STORAGE

Optimise your *shower space.*

As well as making a design statement, you can make the most of your shower space with models that boost bathroom storage, without compromising on aesthetics.

CERATHERM S200

Ceratherm S200 includes an integrated shelf of safety glass for a clean look, which adds valuable storage space.

Comfort

These showers are created with comfort, durability and safety in mind. Choose large to XL metal shower heads that are built to last. Experience three different spray modes which you can flick between at the push of a button. And find the perfect head positioning with the Ceratherm Flex system.

CERATHERM T100

With buttons and controls that blend seamlessly into the Ceratherm T's body, the flow and temperature of the water can be adjusted with the touch of a finger.

*Can be combined with shelf accessory for integrated storage+

A7705AA Ceratherm T100 Flex Shower System

Comfort

CERATHERM FLEX

Don't settle.
Flex.

Everyone should have the shower experience they want, without compromising on comfort. The innovative Ceratherm Flex system offers total freedom of movement for the shower head.

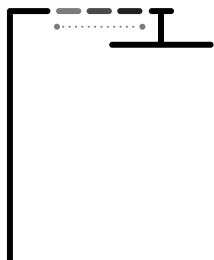

Fits for everyone: adapt the height of the shower head during usage to every member of the house, so everyone enjoys their ideal shower.

Set the right height: set up your shower to the ideal height from day one, so you can renovate without rebuilding.

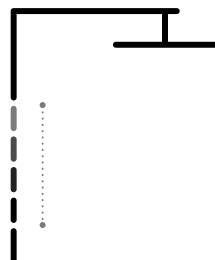

Perfectly match your tray: set up your shower head to sit right in the middle to maximize your shower space, thanks to horizontal adjustment.

MULTI DIRECTIONAL ADJUSTMENT

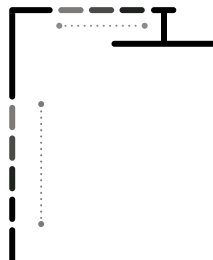

Adjust the distance from shower head to wall.

Adjust height of shower head.

Multi Adjustment, height and nosing of shower head.

Fresh

A fresh blend of modern design and must-have technology, with small but important design touches that add extra flexibility and control.

For example, showers have Cool Body technology – ensuring the hot water flow is always surrounded by cold water inside the fitting, to protect your skin and your family.

CERATHERM T25

The Ceratherm T25 features a raised button for improved grip and control.

* Can be combined with shelf accessory for integrated storage+

COOL BODY

Powering a *safer* shower.

Whatever your preferred temperature, our showers stay cool to the touch thanks to Cool Body. The innovative design ensures the hot water flow is always surrounded by cold water, so the surface is always cool to the touch – protecting users of all ages and abilities from scalding, and offering total comfort of use.

OVERVIEW

A collection to
suit your lifestyle.

Design statement piece. Safe, family
shower system. Sleek, modern solution.
Choose the shower that's right for you,
and your space.

Together we positively
impact the future of
modern living. Together
we think bigger. Together
we establish the rules for
considered design.
Together we bring emotion
to functional perfection.
Together we form enduring
partnerships. Together we
meet the needs of all
generations. Together we
shape the future of the
category we have defined.

Together for Better.
